

## FOG-IT SOLUTIONS

# A Three-Step Approach to Creating Healthier Spaces

*An industry-defining standard of cleaning and disinfection*

As your facilities return to normal occupancy levels, providing peace of mind is vital. There is a heightened sense of scrutiny for demonstrating that you are doing your part to provide clean, healthy, and safe environments. The Fog-it Solutions™ program is a three-step approach that delivers healthy spaces with a certified disinfection process backed by experts.

We help clients to return safely, navigate change, and deliver assurance by demonstrating trustworthy cleaning and disinfection. We do so through consistent intervals of frequent high touch point and broad disinfection, all delivered by a reliable partner dedicated to innovating ways to create healthier spaces. Our certified process is developed in partnership with our Fog-it Advisory Council, which includes board certified experts in infectious disease and industrial hygiene.

## The Right Step for the Right Time

### Complement Existing Cleaning Service Standards with Frequent Disinfection

Every building is unique, but what all facilities have in common is the ongoing need for preventative practices and regular disinfection to improve the health and wellness of the building and its occupants.

We can help you meet the evolving challenges of reentry and ongoing facility services, supplemented by broad disinfection technologies to cover every angle of building wellness.

	Suggested Frequency	Methods Employed	Team Members Deployed	Potential Supplies and Equipment
<b>Step 1: Assessment</b> Build trust that it's safe to return to your space.	Intervals based on reentry	<ul style="list-style-type: none"> <li>Pre-opening site assessment(s) using reentry checklists to inform return to work strategy</li> <li>Workforce protocols (i.e. PPE &amp; social distancing procedures)</li> </ul>	Certified disinfection specialists	<ul style="list-style-type: none"> <li>No touch fixtures, dispensers &amp; door openers</li> <li>Centralized trash receptacles</li> <li>Sensor technologies</li> </ul>
<b>Step 2: Frequent High Touch Disinfection</b> Conduct a professional cleaning and disinfection service.	Intervals range from weekly to monthly	<ul style="list-style-type: none"> <li>Site-specific SOW for each facility type based on occupancy levels</li> <li>Cleaning and disinfection of all high touch point areas in facility</li> </ul>	Certified disinfection specialists	<ul style="list-style-type: none"> <li>Occupant Communication Kits</li> <li>EPA-registered disinfectants qualified for use against SARS-CoV-2</li> <li>Proper PPE</li> <li>Microfiber program</li> </ul>
<b>Step 3: Broader Disinfection</b> Reset your full facility to higher standards beyond high touch point cleaning.	Intervals range from monthly to quarterly	<ul style="list-style-type: none"> <li>Large area disinfection</li> </ul>	Certified disinfection specialists	<ul style="list-style-type: none"> <li>Electrostatic sprayers</li> <li>Hospital grade EPA-registered disinfectants with faster kill time and broader pathogen spectrum if an outbreak has occurred in your facility</li> </ul> <p><b>Continued product testing:</b></p> <ul style="list-style-type: none"> <li>Testing and validation</li> <li>UV devices and UVC lighting</li> </ul>
